

UNDERSTORY CREW ARCHETYPE TARGETS

Low-fidelity visual spec for Codex mockups: keep the body builder, retarget gear/materials/tones.

FIRST SHORER

Makes the Bore safe enough for everyone else.

- Wrapped hood or ceramic hard hat, not a toy helmet.
- Timber brace, hammer, chalk, sample tags, low lantern.
- Focused posture, reduced bounce, visible work weight.
- Palette: stone, timber, dust, dull blue-grey cloth.

BREATHLINE MECHANIC

Restores Old Lungs, vents, ducts, and Veil-clearing systems.

- Smoked visor, ceramic filter mask, pressure pack.
- Valve key or wrench, gauge/readout as prop not UI.
- Sacred-practical: machine worker inside a ritual place.
- Palette: oxidized metal, soot teal, leather, brass.

SEED-KEEPER

Turns cleared terraces into livable ground.

- Moss-lined hood, seed pouch, water flask, patched gloves.
- Plant tray or watering can, not mascot flowers everywhere.
- Quiet hope: life returning because someone tends it.
- Palette: alpine green, clay, cloth, worn leather.
